What is the “Red Dot Award: Product Design”?

The Red Dot Award: Product Design is one of the world’s largest design awards sponsored by the North Rhine-Westphalia Design Center in Germany.

Products released in the past two years can apply for consideration, and are judged by a jury of international design specialists, based on nine criteria such as innovation, functionality, quality, and ergonomics.

A winning product receives the distinction “Honourable Mention” or “Red Dot”. Furthermore, outstanding products of a given category can receive the highest award “Red Dot: Best of the Best”.

Two More Product Series Awarded Red Dot

TENGA also received two further awards of the Red Dot for the TENGA CUP Series and TENGA AERO Series.
